SUFFER FOR RAIN. Drought in New Hampshire Has Reached

the Acute Stage.

REPLY A SHOT

Concord, N. H., Aug. 27.—The drought has reached an acute age in New Hampshire. From all sections come reports of suffering from lack of rain, and unless relief is forthcoming the results will be most serious. Advices received by former Governor Bacheldor, secretary of the state board of agriculture, and master of the national Grange, all tell the story of prevailing dryness, and he states that the effect upon the piotato and other the effect upon the ptotato and other crops must be to greatly lessen the har-OF JOS. PELLETORI IN N. Y.

crops must be to greatly lessen the harvest. The effect upon corn cannot yet be fully determined. This has been the off year for appes, and the drought has had the effect to pinch and reduce the size of the fruit, which is quantity is far below that of last year.
